

UPTODATE COURSES FOR TEACHERS ACROSS EUROPE

Dear colleague,

Learning Across Borders about Ideas and Practice around School - For the Improvement of Learning under this motto we'll continue our European courses in the next years.

Again there'll be courses in Finland (focus on advancement and multi-professionell co-operation), in Sweden (focus on individualised learning) as well as in Northern Ireland (Moving out of social division) and Scotland (How Scotland ensures a Quality School Education). The following courses have been new ones for a year:

School Development in Europe for the 21st Century - Stimulation for the Development of YOUR School
Helsinki, Finnland

School Development in Europe - Digital turn: How to make your school more digital
Talinn, Estlan

You find detailed information of all courses on our website under the following link:
